

Manage every aspect of the student travel abroad process

Manage all aspects of the study abroad process from Horizons – no need to ever switch back and forth between tools. Horizons is the comprehensive resource for staff to maintain control over the complete study abroad cycle while providing students with everything they'll need to make the most of their experience.

WHAT CLIENTS ARE SAYING

“Horizons allowed us to leave a lighter footprint while making it easier for students to track their own applications. We’ve eliminated data entry and are able to see student applications from anywhere.”

Murray State University

FOR STUDENTS

With Horizons, students can search through a user-friendly database of various study abroad programs, submit online applications, pay for expenses, access important documents and more, all in one place.

FOR CAMPUS STAFF

Easily create applications for all inbound and outbound programs, monitor exchange balance in real time and use the Pathfinder feature to track off-site trips and minimize institutional risk.

Study abroad programs shouldn't be stressful, for students or for staff. With Horizons, students can enjoy a stress-free application and travel experience that they will be enthusiastic about sharing with their peers. More students participating in travel abroad programs will result in character growth and increased retention rates overall.

WHAT OUR CLIENTS ARE SAYING

“The Symplicity team was able to consistently ‘think outside the box’ to find ways to tailor the software to meet the unique needs of our program.”

Florida State University

FEATURES

- Application Management*

UNPARALLELED CUSTOMER SERVICE

We hire our support staff directly from the higher education field to ensure that they're experts at answering the exact questions you'll have.

UNMATCHED
SECURITY

We don't just “comply” with security standards. We're the only service provider in our space who has mastered a level of security, accountability and process maturity to achieve ISO-9001, SSAE-16, and CMMI Level 3 and ISO 27001 certifications.
